

2021

ANNUAL REPORT

RESTORING THE HUMAN SPIRIT.

In 2021, Mercury One celebrated an entire decade of restoring the human spirit.

Ten years ago, Mercury One was just an idea. A dream that an organization could be created where people come together and do good. Where charity is extended to all, and the human spirit is restored throughout our nation and globe. Ten years later, Mercury One has fulfilled that mission by rescuing persecuted Christians in Afghanistan, teaching the true history of America and its' founding values, restoring communities after disasters strike, and much more. Every partner, volunteer, donation, and prayer has made Mercury One become more than just an idea, but rather a reality that continues to grow and help better our community, nation, and world.

The Nazarene Fund

When tragedy struck in Afghanistan, Mercury One showed up and fought for freedom for persecuted Christians and endangered individuals, such as women and children, in a historic way.

In a matter of days, more than 46 million dollars was raised to help save Americans and American allies in Afghanistan. Every dollar goes to The Nazarene Fund operations to save people from the jaws of evil and bring light to the darkest of circumstances.

Since then, more than 8,000 evacuated refugees have since emigrated to other countries and are rebuilding their lives. The Nazarene Fund continues to provide administrative support (legal, medical, and UN required paperwork) in preparation for travel to destination countries, but we have also taken on the new mission of assisting the Canadian and Australian governments in processing more than 2,300 refugees for emigration. Roughly 20,000 refugees went to the UAE, Abu Dhabi Humanitarian City, and roughly 10,000 of those were rescued by The Nazarene Fund.

The Nazarene Fund is one of the only groups that continues to help move people from this temporary site to their final destinations and provide food, supplies, and other resources to refugees.

The impact made in Afghanistan got people's attention around the world and showcased exactly what Mercury One is about. When nobody else acted, you did. We will continue to stand for freedom and support our partner in all they have done and continue to do in Afghanistan and beyond. Thank you for your unbelievable support as you continue to save lives across the globe.

The American Journey Experience

EDUCATE
ENLIGHTEN
INSPIRE
ENGAGE

In 2021, The American Journey Experience began with the mission to educate, enlighten, inspire, and engage all Americans and people seeking information about the birth, background, history, and unfolding of America's journey.

The American Journey Experience Training Center opened, a space where education is taught, history is held, and truth is spread.

This year the training center held seminars to teach families, students, and teachers why it is important to always question what you know, search for the truth, and use your voice. It is through your support that we can continue to let all know the story of our nation and the values we should fight to uphold today.

The American Journey Experience is just getting started and we cannot wait to see what the next decade holds as it continues to expand, open to the public, and teach honest history to all.

RESTORING THE HUMAN SPIRIT.

Disaster Relief

Disasters and tragedies are often unexpected and there is little time to prepare once one occurs. No community should feel unprepared. No neighborhood should have to recover on its own. Mercury One and our partners aim to be there every step of the way.

This year during the Miami Building Collapse, Hurricane Elsa, Hurricane Ida, and other natural disasters that struck communities this year, we were there. Because of you, communities are restored, and first responders are supported.

Thank you for aiding fellow Americans on their worst days and helping us stay prepared for the unexpected.

CONCLUSION

As a new decade begins, Mercury One enters a new chapter.

We thank you for your steadfast support through it all. As we launch into the next chapter of Mercury One, we invite you to continue the journey with us.

We cannot wait to see what the next decade has in store and where God will lead us next.

Impact Numbers

\$46 M

More than 46 million dollars raised to get persecuted Christians and other religious minorities out of Afghanistan.

71,000

71,000+ meals served after deadly tornadoes hit Mayfield, KY

35

A total of 35 flights were flown out of Afghanistan on TNF-funded and directed planes.

12,500

Evacuation of over 12,500+ refugees

8,000

More than 8,000 refugees evacuated have since emigrated to other countries.

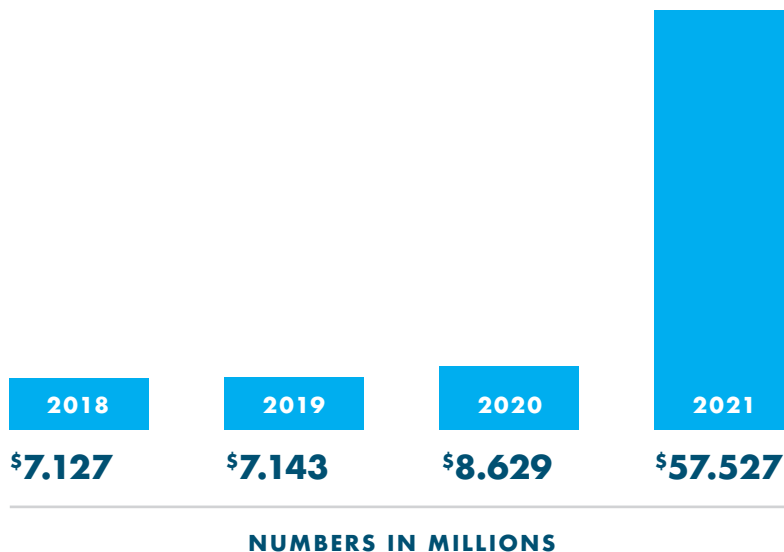

10,000

Aided 10,000 refugees in the UAE to their final destinations.

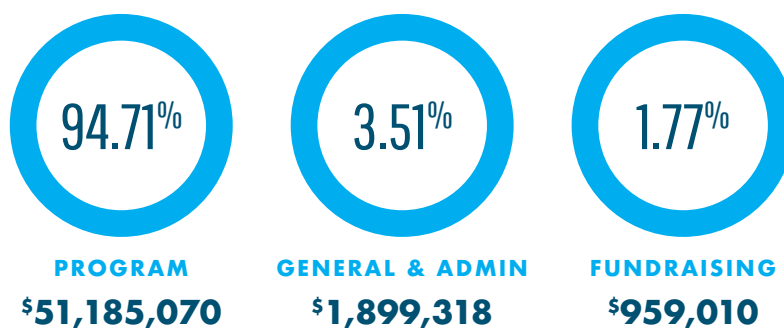

2021 ANNUAL REVENUE
