

AT MERCURY ONE,
WE DO MORE
SO THE GOVERNMENT
CAN DO LESS.

Over the course of the last decade, it has become clear that when a crisis strikes, we cannot rely on the government for rescue, safety, or protection.

AFGHANISTAN

When the United States withdrew out of Afghanistan in 2021, the government left behind thousands of vulnerable Americans and persecuted religious minorities – so we chartered 34 planes and helped over 14,500 individuals escape persecution and even death.

ISRAEL

When Israel was attacked by Hamas terrorists on October 7, 2023, Americans were left trapped in Israel. The United States Government did nothing to help them in the days after the attack, leaving Americans vulnerable and without answers. We did not wait, but rather took action to go and rescue Americans in Israel. We helped charter planes and got 440 individuals out of Israel and directly to America with no cost to them.

HAITI

In 2024, criminal gangs have taken over Haiti's state security forces and the nation's capital, forcing businesses and schools to close, and forcing an estimated 15,000 people from their homes. The country is in complete chaos, as some experts have already labelled it a low-scale civil war. Vulnerable Americans, many of them missionaries and volunteers, are trapped in Haiti and the US government has done nothing to get them out. We worked with partners to get over 615 individuals out of Haiti and rescue 59 orphans from certain death.

MAUI

In August of 2023, Maui experienced the deadliest wildfire to hit the United States in more than a century. When the crisis first began, Maui experienced very little help from the US government. Since the beginning of the disaster in Maui, we have been on the ground with our partners aiding people with vital resources, making sure the people of Maui are aided and cared for. We've helped rebuild the lives of Maui residents by getting them warm meals, basic resources, and building temporary shelters and tiny homes for families so they don't have to leave the island they call home.

MAUI RELIEF UPDATE VIDEO:

Moments like these are the reason Glenn Beck created Mercury One.

Mercury One is a 501(c)(3) charity founded in 2011 by media personality, entrepreneur, and New York Times best-selling author, Glenn Beck.

Mercury One seeks to restore the human spirit by encouraging dependence on God, providing humanitarian aid, preserving heritage and empowering all to stand for truth.

Mercury One partners with ministries and non-profits around the globe to restore communities after natural disasters, rescue individuals from human trafficking and abuse, and support our veterans.

“We don’t stand between government aid and people in need. We stand with people in need, so they no longer need the government.”

- GLENN BECK, FOUNDER

OUR VISION

**WE DO MORE SO THE
GOVERNMENT CAN DO LESS.**

It is our vision to advance skills, knowledge, and attitudes necessary for individuals and communities to help themselves.

THE NAZARENE FUND

MISSION

The Nazarene Fund is a fund of Mercury One established in 2015 by Glenn Beck in response to ISIS, a terrorist group in the Middle East that was persecuting and killing Christians and Yazidis by the thousands.

The Nazarene Fund is a 501(c)3 non-profit organization with a mission to liberate the captive, to free the enslaved, and to rescue, rebuild and restore the lives of Christians and other persecuted people wherever and whenever they are in need.

The Nazarene Fund has successfully facilitated the rescue and support of 38,000+ individuals so far all around the world.

OPERATIONS

The Nazarene Fund (TNF) serves countries all around the world, from large scale operations to personal missions to make sure nobody is forgotten or left behind. TNF performs evacuations in high-risk areas after natural disasters, industrial accidents, or public safety concerns.

The organization rescues and relocates victims who are escaping enslavement, such as organ harvesting camps and human trafficking rings, or are in imminent danger of injury or death. TNF also serves in special cases, such as providing safe and secure housing for mothers and their children of war and providing medical care to former captives and ISIS sex slaves.

The Nazarene Fund operates like the parable presented in the Gospel of Luke, leaving the flock of 99 to go after the one lost sheep in danger. If one life is restored through the operations of TNF, all of the work is worth it, but thanks to the incredible generosity of thousands of Americans, over 38,000 lives have been restored.

THE NAZARENE FUND'S GOALS FOR 2024 AND BEYOND:

Continue to liberate the captive, free the enslaved, rescue, rebuild, and restore.

RESCUE AND ASSIST YAZIDIS

TNF continues to focus on the work in the Nineveh plains where they continue rescuing and assisting Yazidis that still suffer at the hands of ISIS.

RESCUE CHRISTIANS

They will also continue rescuing Christians in this region who are targeted and persecuted for their religion beliefs.

RESTORE THOSE LEFT BEHIND

TNF is continuing to restore the lives of those who were tragically left behind in The United States' withdrawal out of Afghanistan by feeding, moving, and helping permanently relocate those who have been forgotten.

FIGHT AGAINST HUMAN TRAFFICKING

TNF continues to fight against human trafficking in West Africa and in 2024 and beyond will answer the call and go where we are needed to assist those who can't help themselves.

THE AMERICAN JOURNEY EXPERIENCE

The American Journey Experience (AJE) is the education branch of Mercury One, established in 2020 by Glenn Beck.

The rapid destruction of America's history has become the status quo in America's public education system and universities. With movements like the 1619 Project, Glenn understood that if patriots did not step up and preserve our own history, it would be erased and distorted for generations to come.

AJE has collected over 160,000 artifacts to tell the story of America. The collection is carefully preserved at The American Journey Experience Vault and Training Center in Irving, Texas.

AJE does not simply collect history.

Rather, uses it to equip individuals with the knowledge and understanding of what it took to become the greatest country to ever exist and what it will take of us to preserve it for future generations.

History does not save itself. It takes a dedicated team of educators to search, protect, and learn about these artifacts. It is AJE's goal to keep the precious pieces of our history out of the hands of bad actors who want to destroy it. AJE's goal is to share the unadulterated truth directly from primary documents, spreading it across the nation so that individuals like yourself can hear it and take meaningful action.

We have various events throughout the year to reach Americans of all ages so they can learn the truth – the good, bad, and ugly parts of America's story.

TOURS

Tours are offered of The American Journey Experience throughout the year. Guests are able to hear stories of our history from our educators and view and hold pieces of AJE's 160,000 artifact collection. You can book a tour and purchase tickets at americanjourneyexperience.com.

EXHIBITS

AJE puts on exhibits throughout the country – bringing history right to people's neighborhoods so they can easily learn the heritage of our nation. In 2023, AJE put on the first travelling exhibit in Saint George, Utah and Preston, Idaho – reaching over 13,000 guests in two weeks. AJE also offers church, school, and private exhibits throughout the year.

SEMINARS AND CONFERENCES

AJE hosts families, pastors, teachers, and students from around the nation at the AJE Vault and Training Center at the AJE Family Seminar, Summer Institute, Teacher's Conference, and Pastor's Conference alongside our education partner, Wallbuilders, founded by expert historian David Barton.

AJE IN ACTION

AJE is much more than a museum. Knowing our past equips us to advocate for a better future.

In 2024, our education team was able to join the Louisiana House of Representatives to testify in support of allowing the ten commandments to be displayed in public school classrooms by explaining the historical context around the ten commandments in relation to America's founding and law.

GOALS FOR 2025 AND BEYOND

AJE continues to not only expand through physical traveling and growing the museum, but by also digitalizing the collection to make it accessible to all.

AJE has taken major steps forward to digitalize the library using Zeuchel OS C1 A1 Scanner. It is through this scanning work that AJE's curriculum will not only be taught through tours, exhibits, and in classrooms but also enable people around the globe to do their own research and learn history directly from primary artifacts.

“You are the light of the world. A city set on a hill cannot be hidden; nor does anyone light a lamp and put it under a basket, but on the lampstand, and it gives light to all who are in the house. Let your light shine before men in such a way that they may see your good works, and glorify your Father who is in heaven.”
